

# NATURAL GOLD

Concentrated Non-Butyl Degreaser

**A concentrated heavy duty cleaner that is safe to use and contains no butyl or harsh solvents.**

### Labor & Time Saver

A blend of surfactants and wetting agents that quickly penetrates and lifts heavy soils without the concerns associated with butyl or toxic solvents.

### Heavy Duty Cleaning

Natural Gold provides power cleaning for greasy, oily build ups in industrial applications. Its ability to effectively remove animal fats and vegetable oils makes Natural Gold perfect for kitchens, restaurant, grease tubs and dump sites. USDA rated.

### Strong but Gentle

Natural Gold is also mild enough for light cleaning. Effectively and safely removes soil without damaging surfaces at low dilution ratios.

### Versatile

Natural Gold can be used in many different types of equipment such as pressure washing, automatic scrubbing, steam cleaners, foam guns, etc. Degrease with hot or cold water.

### Economical & Safe

Natural Gold dilutes up to 1-128 (1 oz. per gal.) and contains no solvents, no abrasives or harmful vapors. Nonflammable and biodegradable.
