

Ultra Silk

Lotion Hand Soap

A lotionized concentrated hand soap designed for refilling on wall, in wall or in counter dispensers.

Ultra Silk is a synthetic hand soap with a light fragrance; perfect for use in office buildings, schools, restrooms and light industrial areas.

Rich & Gentle

Unlike thin or too thick formulas, Ultra Silk's viscosity is such that it flows easily through dispensing equipment, yet maintaining its richness. Its balanced pH makes Ultra Silk gentle to the skin.

Versatile

Ultra silk can also be used as a shower and bath soap. Rinsability is excellent and its synthetic formula virtually eliminates soap scum associated with bar soaps.

Custom Colors

Ultra Silk is stocked in a pink pearl color. Custom colors in white, aqua and gold pearl are also available in volume.
